2. OPEN ENDED QUESTIONS (TA)

2.1) Please comment on specific characteristics of the teaching assistant that were most beneficial to you:

- Ability to get through things quicker sometimes.
- The teaching assistant was very patient and allowed for students to ask as many questions and went through material thoroughly
- Was very thorough and concise. Easy to understand when he is teaching. Is able to answer any questions that arise
- What was most beneficial to me was how he was able to write out every problem to show how the problem is done.
- honestly, nothing

2.2) Please comment on the specific characteristics of the teaching assistant that need improvement:

- Nothing amazing assistant
- Too fast on explanations of problems and not super accepting of student questions.
- What could use some improvement is using simpler terms when explaining a problem.

- being more clear and explaining things better. they expected us to have background knowledge or know things we had not even covered in class. plus there was very little if any feedback on assignments. I would suggest changing the way they handle going through the worksheets. just watching the students do the worksheets does not help students.
