

# Syllabus: Linear Algebra II

MATH 425 Linear Algebra II, Spring 2012  
LCD-undergrad 24908; LCD-grad 24909,  
MWF 10:00-10:50, Addams Hall 303

Instructor: Shmuel Friedland  
Office: 1215 SEO, phone: 413-2159, *e:mail:* friedlan@uic.edu,  
*web:* <http://www.math.uic.edu/~friedlan>

**OFFICE HOURS:** M 12:30-1:30, WF 8:30-9:30, or by appointment.

**TEXT:** I will supply lecture notes based on lecture notes on Math 310, Math 320, Math 494 and my book in preparation "Matrices". See my teaching web site.

<http://www.math.uic.edu/~friedlan/teaching.html>

For problems I will using mostly "Schaum's Outline of Linear ALgebra" by S. Lipschutz and M. Lipson, 4th edition.

You can also use a free book: Linear Algebra by Peter Petersen  
<http://www.math.ucla.edu/~petersen/linalg3.pdf>

**PREREQUISITE:** Math 320 or Math 310, (first course in Linear Algebra) or its equivalent.

## 1 Introduction

Theory of Matrices is well recognized subject in mathematics and its applications to: applied mathematics, biology, computer science, engineering, physics and various social sciences. *Math 425* is the second course on Linear Algebra. It will give students an exposure to more advanced topics which are the most used in theory and applications. We will give applications of each topic.

## 2 Topics of the course

1. Inner product spaces
  - (a) Basic results on inner product spaces and linear operators.
  - (b) Spectral decomposition of normal operators in finite dimensional inner product spaces, i.e. diagonalization of normal matrices by a unitary matrix.
  - (c) Mini-max characterizations of eigenvalues of hermitian matrices.
  - (d) Singular Value Decomposition and Moore-Penrose inverse.
2. Jordan Canonical form and spectral theory for matrices over complex numbers.
3. Perron-Frobenius theorem for nonnegative matrices (?)

### 3 GRADING

1. Quizzes and Homework - 25%. (Usually there would be 10 minutes quiz in the end of the class once a week, except the first week of classes, and the exam week.)
2. One Midterm - 25%, **Date:** Wednesday, March 7, 2012.
3. Final Exam - 50%.
