Applied Stochastic Processes and Control for Jump-Diffusions:

Modeling, Analysis, and Computation

Floyd B. Hanson, University of Illinois at Chicago, Chicago, Illinois

Post 2011 Reprint Errata

November 29, 2012

Negative numbered lines imply lines counted up from the bottom, designated as line -1.

- Page 37, Defn. 2.4: Replace "*if for every $\epsilon > 0$,*" by "*if*".
