Corrections:

To obtain a correct answer among the choices, notice:

12. WRONG ANSWER with $p = 44 - x$; answer OK for $p = (45 - x)$

17. Wrong Answer for $q = (300 - p^2)/60$. Answers OK for $q = (30000 - p^2)/60$

21 Wrong Answer for $f(1) = 100$, multiply by 100 every year. $f(3) = 10^6$. Answer OK with $f(1) = 10$.

Complete solutions soon!

Best regards,
Jeff E. Lewis
