1. TA EVALUATION

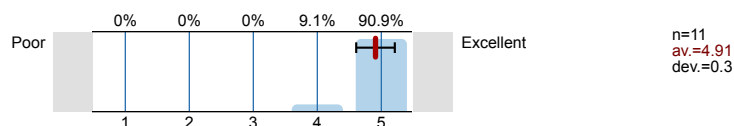

1.1) What is the overall ranking of the teaching assistant?

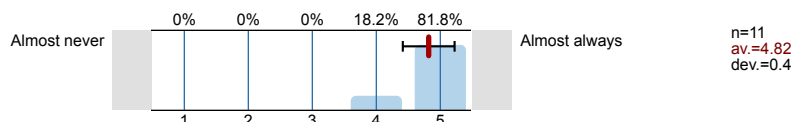

1.2) The teaching assistant was able to answer student's questions.

1.3) The teaching assistant was able to explain material and assist with any other aspects of the course and / or lab.

1.4) The teaching assistant was sensitive to student needs.

2. OPEN ENDED QUESTIONS (TA)

2.1) Please comment on specific characteristics of the teaching assistant that were most beneficial to you:

- Going through every problem very carefully while allowing us to ask question when we were confused. Provided responses that made concepts easier to grasp.
- Good attitude and enthusiasm
- He could explain any topic in a simple way that is easy to understand. Sometimes i would not understand what the instructor of the class is teaching, but when I get to his discussion session everything makes more sense
- He explained the content very well.
- He was super understanding of student circumstances. Especially since we were in a building which is pretty far away from campus normally. Also, he explained the material very well.
- He was very friendly, very flexible, very understanding, and he was a phenomenal teacher. He explained the concepts arguably better than the main professor.
- Ryan did an excellent job of explaining the content, and showed genuine interest in the educational advancement of the students in class.
- The TA emphasizes material that will occur on quizzes and exams. When he solves problems on the discussion worksheet, he separates

each step of the problem to make it easier to see where people struggle and prevent mistakes from occurring.

- Went through each problem carefully to ensure the students understood how to solve each problem. Additionally, explained each concept to make sure the students understood why the formula is the way it is.

2.2) Please comment on the specific characteristics of the teaching assistant that need improvement:

- Couldn't ask for a better TA. Ryan seems fully prepared to teach.
- I don't think there is anything that needs improvement
- N/A (3 Counts)
- N/A very good
- Nothing. He could be a regular professor.
- Sometimes the discussion worksheets are too long for the TA to go over entirely within the 50 minutes of class time, and explaining the remaining problems requires visiting him during office hours.

2.3) If necessary, clarify any of your previous responses or make additional comments:

- N/A (2 Counts)
