1.2) The teaching assistant was able to answer student's questions.

1.3) The teaching assistant was able to explain material and assist with any other aspects of the course and / or lab.

1.4) The teaching assistant was sensitive to student needs.

2. OPEN ENDED QUESTIONS (TA)

2.1) Please comment on specific characteristics of the teaching assistant that were most beneficial to you:

- A more in-depth explanation of why we do some of the theorems in Calc 3, which really helps to see the actual concept that MATLAB fails to show.
- Amazing visuals and ways of explaining the content. Very well organized and gave me, I don't want to say "steps," but more like generalized guidelines on how to solve problems. Almost how I was taught to determine if a series converges or diverges in Calc 2. I loved his teaching style because it was similar to my Calc 2 professors.
- Great environment, was down to earth with students and understand not only the course material but also students needs.
- Very patient and accommodating
- genuinley i dont think there is another TA like him. he explains the material so well and hears the needs of every student. he's actually the goat

2.2) Please comment on the specific characteristics of the teaching assistant that need improvement:
