## 2. OPEN ENDED QUESTIONS (TA)

2.1) Please comment on specific characteristics of the teaching assistant that were most beneficial to you:

- I really like that the class would interact more and more as we all got used to ask more questions, discussion was really helpful as we went over things that I personally was struggling with.

- My TA was a great help, with his positive attitude it made discussion sessions great. He was also always going around the room helping us.

- When explaining how to solve a problem he broke it down in a way that made it significantly more easier to understand than how it was thought In lecture.

- very accommodating of students, understanding of our individual needs, had extra copies of discussion materials if needed, encouraged collaboration/discussion + gave adequate answers/explanations when students asked questions

2.2) Please comment on the specific characteristics of the teaching assistant that need improvement:
