1.4) The teaching assistant was sensitive to student needs.

2. OPEN ENDED QUESTIONS (TA)

2.1) Please comment on specific characteristics of the teaching assistant that were most beneficial to you:

- He was super helpful in getting us to understand the full concepts learned in lectures and if we had any questions he was more than willing to help us. He was also really patient when someone was struggling to grasp the concept. Before getting to work on the worksheets for the discussion he always had problems on the board that he would go through and explain really well.
- He was very understanding when I had a lot of personal issues going on and he is extremely good at communicating with us. He took the time to explain concepts that didn't make sense to us in a digestible way so that we weren't so lost in the duration of the course. He was very engaging and it was clear that he was passionate about math. He was a very nice, approachable, and helpful TA and we were very grateful to have him!
- I really like how you explain the example, very detailed and clear. Best math TA I've ever got.
- One on one sessions on making us understand the questions
- The most beneficial characteristic of the TA was that Ryan was very thorough when explaining problems, concepts. Always there when someone needed help. Me personally sometimes I understood concepts better during discussion than lecture.
- The teaching assistant was willing to fully go through any problem with you until you fully understood the problem and even went further with elaborating and working through homework problems.
- This was the best teacher I have ever had in my life. Ryan should really consider teaching as a career. This was the only class I have

taken that I was able to 100% focus on for the entire period. The work was engaging, and the TA was always helpful. He would show up with a smile and answer every question with 100% professionalism.

2.2) Please comment on the specific characteristics of the teaching assistant that need improvement:

- As far as improvements, I don't think Ryan needs to make any major improvements, his way of helping is great and very helpful, friendly, and relating.
